EXPOSURE DRAFT

PROPOSED NATIONAL POLICY 28

MUTUAL FUNDS INVESTING IN MORTGAGES

Serious doubt has arisen as to the validity of the 'buy-back' undertakings embodied in the prospectus of certain mutual funds investing substantially in mortgages. The Canadian Securities Administrators are of the opinion that a mutual fund investing in mortgages should ensure directly its own liquidity. Consequently, they intend to discontinue the present practice whereby such a fund ensures its liquidity indirectly by an undertaking on the part of the manager or promoter to find a purchaser or to repurchase the fund's mortgages and to adopt the following policy.

SECTION I

APPLICABILITY

- I (1) This policy shall apply to any mutual fund having 10% or more of its portfolio invested in mortgages or hypothecs.
- (2) Except where in conflict with this policy, all relevant mutual fund policies apply.

SECTION II

DEFINITIONS

II For the purpose of this policy:

- (1) 'qualified appraiser' means an individual who:

- (a) is a member in good standing for a continuous period of not less than two years of:
 - (i) The Appraisal Institute of Canada and has been designated as a member (C.R.A.) or accredited member (A.A.C.I.),
 - (ii) The Royal Institute of Chartered Surveyors (Britain) and has been designated A.R.I.C.S. or F.R.I.C.S. under its valuation subdivision,
 - (iii) The American Institute of Real Estate Appraisers and has been designated M.A.I.,
 - (iv) The Society of Residential Appraisers, or
 - (v) La Corporation des Evaluateurs agréés du Québec; or
- (b) has been employed or in public practice primarily as a property appraiser for a period of not less than five consecutive years.

(2) 'substantial security holder' means:

any person, company or combination of persons or companies that beneficially owns directly or indirectly more than 10% of the voting rights attached to all outstanding equity shares.

(3) 'liquid assets' means:

cash or deposit with a Canadian chartered bank or with any trust company registered under the laws of any province of Canada and debt securities valued at market issued or guaranteed by the Government of Canada or any of the Canadian provinces.

SECTION III

INVESTMENT POLICY

III (1) Liquidity:

The prospectus of a mutual fund investing in mortgages shall include a provision that the fund will maintain at all times, as liquid assets, the greater of:

<u>Total assets of the fund</u>	<u>Percentage or</u>
<u>(Market value)</u>	<u>minimum amount to be</u>
	<u>maintained as liquid</u>
	<u>assets</u>
\$ 350,000 up to \$ 1,000,000	25% of \$ 100,000
\$ 1,000,000 up to \$ 2,000,000	20% or \$ 250,000
\$ 2,000,000 up to \$ 5,000,000	15% or \$ 400,000
\$ 5,000,000 up to \$50,000,000	10% or \$ 750,000
\$50,000,000 or more	8% or \$5,000,000

No investment in any one mortgage is to be made if it would result in the aggregate market value of the liquid assets of the fund being reduced below the minimum percentage or amount shown above.

(2) Restrictions:

(2.1) A fund may not invest in mortgages:

- (a) more than 10% of its net assets until its net assets have reached and continues to be maintained at a minimum of \$350,000;
- (b) on raw land or undeveloped land;
- (c) other than first mortgages on properties located in Canada;
- (d) on residential properties of more than 4 units, or commercial and industrial properties, until the fund has reached total assets of \$15,000,000. In any event, the total amount of such mortgages must never exceed 20% of the total assets of the fund;

- (e) an amount more than 75% of the value of the property securing the mortgage, as appraised by a qualified appraiser, except when:
 - (i) the said mortgage is insured under the National Housing Act (Canada), or
 - (ii) the excess over 75% is insured by an insurance company registered or licensed under the Canadian and British Insurance Companies Act (Canada), the Foreign Insurance Companies Act (Canada) or the insurance acts or other similar acts of a Canadian province or territory;
- (f) with a maturity exceeding 5 years. The amortization period of the mortgage must not exceed 35 years;
- (g) an amount exceeding \$500,000 or 5% of its net assets, whichever is less, for any one mortgage;
- (h) on a property in which:
 - (i) any officer, director or trustee of the mutual fund, its management company or distribution company or an associate or affiliate of any of them, or
 - (ii) any person or company who is a substantial security holder of the mutual fund, its management company or its distribution company or any associate or affiliate of any person or company who is a substantial security holder of the mutual fund, its management company or its distribution company,has a significant interest.

(2.2) Neither the fund nor the manager on behalf of the fund shall enter into forward commitments with regard to mortgages to be acquired by the fund.

- (2.3) Mortgages shall be purchased or sold at current market value.

SECTION IV

DISCLOSURE

IV The prospectus of the fund shall include:

- (a) the methods used to value all portfolio holdings (including mortgages in arrears) in determining the net asset value of the fund;
- (b) a table showing the distribution of the mortgage portfolio according to the type of property securing the mortgage (single family dwelling, multi-unit dwelling of up to 4 units, multi-unit dwelling of more than 4 units, industrial, commercial);
- (c) a table showing the geographical distribution of the mortgage portfolio;
- (d) a table showing the status of mortgages in arrears segregated according to the number of instalments in arrears and to the type of property securing the mortgage (first instalment in arrears and any subsequent for industrial and commercial mortgages and arrears of more than 2 instalments for other mortgages);
- (e) a table showing the contractual interest rate in groups of not more than one quarter percent for the mortgages in the portfolio;
- (f) in each of the tables required under this section, the number of mortgages and the total market value shall be shown. Furthermore, in the case of the tables required under IV (d) and IV (e), the total principal value shall be shown;
- (g) the aggregate of the profit or loss to the manager resulting from the sale of mortgages to or the purchase of mortgages from the fund during each of the last 3 completed financial years.

SECTION V

COMING INTO FORCE

- V This policy statement shall come into force on 1ST MARCH, 1976; therefore, its provisions will apply in full for any fund established after that date.

Regarding the funds already established, the following transitional provisions will apply;

- (a) from the date this policy statement comes into force, no investment in mortgages may be made if it has the effect of:
 - (i) violating the provisions of Section III (2); or
 - (ii) increasing the percentage that the fund has already invested in mortgages over the limit allowed by Sections III (2) (a) and III (2) (d) of this policy statement;
- (b) Sections III (1) and IV will apply one year from the date this policy statement comes into force.

EFFECTIVE 1ST APRIL, 1976

JUNIOR MINING EXPLORATION AND DEVELOPMENT COMPANIES

On the basis of the briefs presented by representatives of the four main interest groups and the staff, and following consultation with the Quebec Securities Commission, the two Commissions have revised the most recent exposure draft. Subject to further changes that may be made to permit the policies of the Ontario Securities Commission and the Quebec Securities Commission to be as uniform as possible the following will replace the present Ontario Securities Commission Policy No. 3-02 and will become effective 1ST APRIL, 1976.

I APPLICATION OF THE POLICY

Policies are guidelines only. The Commission and the Director will always exercise their discretion and are not bound by policies. Special or unusual circumstances will be carefully considered. The Commission also reserves the right to look behind the corporate facade for any attempt to avoid a policy.

Where the securities of the issuer are listed on a recognized stock exchange, that exchange will also be consulted.

II SCOPE OF THE POLICY

Specific consideration must be given to the following parties:

- (a) the public,
- (b) the promoter-entrepreneur, (promoter)
- (c) the underwriter-distributor, and
- (d) the prospector-vendor.

The promoter-entrepreneur, the underwriter-distributor, and the prospector-vendor, or any of them, may be an individual, a partnership, a syndicate, or a limited liability company.

With the ultimate protection of the public in view, the policy must assure an equitable participation and relationship between the four main interest groups.

III THE PUBLIC

The Commission must ensure that the public:

- (a) is adequately informed as to the true nature and the essential risks of the venture in which it is being asked to participate, and
- (b) receives an equitable share in the ventures for the risk undertaken,

and that the venture is responsibly managed and adequately financed for the benefit of all of the parties.

IV THE COMPANY

- (1) The name of the company should be descriptive of its business, i.e. 'XYZ Exploration and Development Company Limited'. The unqualified words 'Mine' or 'Mining' will not be acceptable in the case of new companies until such time as the company has a proven ore body capable of being profitably mined; e.g. 'XYZ Mines Limited' or 'XYZ Mining Company Limited'. In the case of existing companies there is no need to change its name but face page disclosure on the prospectus must clearly state that it is an exploration and development company unless the company has an ore body.

- (2) (a) The company may have two or more classes of shares, including common shares and 'promoters' ' non-participating, redeemable, voting preference or special shares. The promoters' shares
- (i) may carry a preference over the common shares as to repayment of capital upon the dissolution of the company or otherwise, but shall not be entitled to participate further in the earnings or assets of the company, and
 - (ii) shall be redeemable by the company upon payment of the amount paid up on the shares.
- (b) The promoters' shares shall be issued only for cash and may be accompanied by warrants to subscribe for common shares, on a warrant-for-share basis, upon payment as set out below. Not more than 500,000 promoters' shares and, subject to paragraph V (7), not more than 500,000 warrants shall be outstanding at any given time.
- (c) Warrants may be exercised from time to time to the lesser number of 500,000 or 25% of the number of common shares issued for cash pursuant to underwritings or best efforts financings, upon payment as follows:
- (i) one and one-half times the maximum price received by the company through the underwriting or best efforts financing which first establishes the right to exercise a specific number of warrants, and subsequently,
 - (ii) one and one-half times the maximum price received by the company through each subsequent underwriting or best efforts financing which establishes the right to exercise an additional specific number of warrants.

The rights to exercise warrants may be accumulated and exercised so long as the underlying promoters' shares have not been redeemed.

- (d) As warrants are exercised the underlying promoters' shares shall be redeemed and the balance of the outstanding promoters' shares shall be redeemed
 - (i) upon the issue of new promoters' shares and warrants as contemplated in paragraph V (7), or
 - (ii) in any event, not later than five years after their date of issue.
- (3) The 'use of proceeds' section of the prospectus must detail the proposed disposition of the funds raised through the prospectus, in the first instance, including the repayment of any money advanced by the promoter, and the proposed head office expenses. The balance of the funds must be directed, originally, to the exploration and development programme recommended by the engineer's report. The percentage of funds being directed to head office and administrative expenses will be carefully scrutinized.
- (4) As a condition before the receipt of its prospectus, the company will undertake to file with the Commission within twenty-one days of the date to which it is made up, an unaudited statement of changes in financial position (source and application of funds) for each three month period in the company's fiscal year commencing with the three month period which commenced on or prior to the date on which the receipt for that prospectus issued together with a cumulative statement for each subsequent period. These statements will be reviewed by the Commission's financial surveillance staff.
- (5) Upon application of the company made one year or more after the company undertakes to file cumulative statements of changes in financial position and upon being satisfied that the funds raised through the prospectus or through subsequent financing have been properly expended for the purposes set out in the prospectus, the Commission may make an order on such terms and conditions as it may impose relieving the company of its undertaking.

V THE PROMOTER-ENTREPRENEUR (PROMOTER)

- (1) The promoter may also be prospector-vendor, but may not, either directly or indirectly, be or be associated with the underwriter-distributor.
- (2) The promoter shall provide the initial funds required for incorporation, legal, accounting and engineering fees and filing the prospectus as well as any funds required by the company to purchase mining claims.
- (3) The funds advanced will be established as a loan to the new company. The promoter may elect reimbursement at any time:
 - (a) in cash, after public financing,
 - (b) as consideration for the payment of common shares at a price not less than that received per share by the treasury of the company on the underwriting or, in the case of a best efforts offering, the net average price received by the treasury through the offering, or
 - (c) a combination of both.
- (4) The promoter will be free to dispose of these common shares following the financing of the company's treasury through the prospectus or subsequently through a prospectus or any available exemption from the prospectus requirements.
- (5) In order to maintain management control during the early life of the company, the promoter shall be entitled to subscribe for promoters' shares and warrants as provided for in paragraph IV (2) above.
- (6) Promoters' shares and warrants and the rights evidenced thereby are not transferable except with the consent of the Commission.

- (7) Where, after an adequately financed exploration program, a promoter arranges for the company to acquire a new property and arranges financing for its exploration and development, new promoters' shares and warrants may issue, on the acceptance of a prospectus for filing, upon the same conditions as the original promoters' shares and warrants. All of the previously issued and then outstanding promoters' shares and warrants will thereupon be redeemed and cancelled; provided, however, that where a promoter has previously earned the right to purchase specific numbers of common shares at specific prices but has not done so, the rights thus accrued may continue and be exercisable at any time during a period of five years from the date of issue of the new promoters' shares and warrants, or so long as the company continues to hold the original property, whichever is the shorter period of time. In exceptional cases the Commission will entertain an application for an extension of that five year period.
- (8) The promoter is free to sell common shares purchased through the exercise of his share purchase warrants through a prospectus or any exemption available for him at any time six months or more following the date of the receipt for the prospectus relating to the financing upon which the right to purchase common shares was based.

VI UNDERWRITER-DISTRIBUTOR

- (1) The underwriter-distributor may not be directly or indirectly the promoter or a prospector-vendor. However, this will not prevent him from requiring a 'voluntary' escrow of free common shares by the promoter or the vendor-prospector during any distribution of treasury shares. If the vendor wishes to sell his free common shares, the underwriter-distributor may purchase them as principal at not less than the underwriting price or the average net price to the treasury of the company in the case of a best efforts offering.
- (2) The minimum underwriting or best efforts offering shall be for not less than \$75,000. net to the company's treasury.

- (3) In the case of a minimum underwriting, the underwriter may pay for the common shares as they are sold providing the first payment of \$30,000. is made within 30 days of the acceptance of the prospectus for filing, a second payment of \$25,000. within 60 days and the final payment of \$20,000. within 90 days. Payments for larger underwritings shall be prorated in the same percentages.
- (4) The minimum (net) amount to be received by the treasury is 20¢ per common share.
- (5) Options will not be permitted.
- (6) The offer must be at a fixed price which must appear on the face page of the prospectus.
- (7) While there is no maximum price ceiling at which common shares may be offered for sale by the underwriter, if the underwriter decides to offer the shares at a price in excess of 100% of the underwriting price from the company's treasury, he shall pay 60% of such excess to the company. The amount to be received by the company shall be disclosed on the face page of the prospectus.
- (8) In the event the underwriter-distributor is unable to sell the whole of the underwriting at the price stated on the face page of the prospectus and consequently finds it necessary to reduce its offering price, the net amount to be received by the company shall not be reduced. The underwriter-distributor shall immediately notify the Commission of any change in the offering price.
- (9) So long as the prospectus is otherwise current and amended up-to-date, further financing may be proceeded with through an amendment to the current prospectus upon payment of the appropriate fees.

- (10) If the underwriter takes down a minimum of \$150,000. worth of common shares net to the company's treasury within one year of the receipt for the prospectus, he may receive a bonus of 15 common shares for every 100 such shares the underwriter purchased from the treasury. For each subsequent fiscal year that the underwriter takes down a minimum of \$150,000. worth of such shares net to the company's treasury, the bonus will increase by one share to a maximum of 20 common shares for every 100 shares.
- (11) Where a dealer sells as agent for the company on a best efforts offering the net payable to the company after deducting commissions and selling expenses shall not be less than 75% of the price received from the public. A dealer selling as agent and, if it has been previously agreed in writing, the promoter may share on a best efforts offering which has yielded to the treasury of the company a minimum of \$150,000 within one year of the receipt for the prospectus in a bonus of 10 common shares for every 100 such shares purchased from the treasury. For each subsequent fiscal year that the treasury of the company receives \$150,000. from a best efforts offering, the bonus will increase by one share to a maximum of 15 common shares for every 100 shares.
- (12) The minimum net amount to the treasury in a 'best efforts' offering shall not be less than \$75,000. with all of the proceeds to be held by a trustee acceptable to the Director. The trustee will not transmit these funds to the company until the minimum amount established through the prospectus, including commissions and other sales expenses, has been received or, alternatively, where the minimum has not been received within the time specified the trustee will then return the subscriptions to the subscriber without any deductions. A 'best efforts' offering will normally remain open for 90 days. The Director shall have discretion to shorten the period or, during the term of the offering, to extend the period upon such terms and conditions as he may impose.

VII PROSPECTOR-VENDOR

- (1) The greatest flexibility will be allowed in the structuring of genuinely arm's length agreements between a company and the prospector-vendor whether the agreement is by way of outright purchase or through a working option and, subject to the restrictions in (2), whether for free common shares or cash or a combination of both and whether or not the vendor retains a carried interest or a royalty.
- (2) The vendor may receive a maximum of 100,000 free common shares on an outright purchase or 500,000 such free shares pursuant to a working option extending for five years or more, with periodic option payments of free shares. The total number of free common shares issued pursuant to a working option shall not exceed 25% of all common shares issued and outstanding at the time of each payment.
- (3) The underwriter-distributor or an associate of the underwriter-distributor shall not directly or indirectly be the vendor. This shall not prohibit the underwriter-distributor from requesting the vendor to enter a 'voluntary' escrow during the offering of the company's treasury stock. If the vendor wishes to sell any of his free common shares as part of such an offering the underwriter-distributor may purchase them from the vendor as principal at a net price not less than the underwriting price or the average net price to the treasury in the case of a best efforts offering.
- (4) Where the vendor is also the promoter, independent sources must verify the vendor consideration as reasonable and, if after a hearing, the Director is unable to reach this conclusion that the consideration is reasonable, his decision may be appealed in accordance with the Act to the Commission and from the Commission to the Court.
- (5) These policies apply to each property acquired by the company.

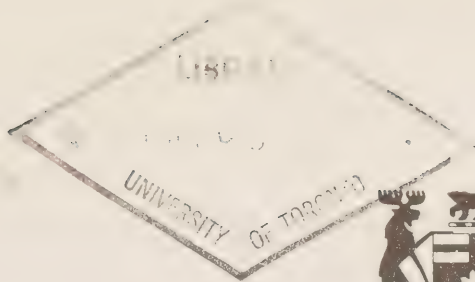

- (6) While it is not feasible to cancel all existing escrow agreements every effort should be made, as existing companies arrange new financing to develop newly acquired properties, to reduce the number of escrowed shares outstanding through a donation back of escrowed shares so that the subsequent financing might proceed in the light of this more flexible philosophy.

VIII ASSISTANCE AVAILABLE FOR PROSPECTOR-VENDORS, PROMOTERS AND DISTRIBUTOR-UNDERWRITERS

The Commission, through the Director, will seek to establish the following practices and procedures:

- (1) In general, the Director or his designated Deputies will be available to discuss problems in anticipation of incorporation and public financing and to offer preliminary opinions as to a particular proposed corporate or business structure, property acquisition and vendor consideration, and financing agreement. The understandings reached should be confirmed in writing to avoid misunderstandings with the conclusions and the facts upon which those conclusions were based being clearly set out. It is suggested that this can be done by the person initiating the discussion writing to the Director and asking him to confirm the understanding.
- (2) While appreciating the difficulties raised, the Commission will continue to request its technical consultant to advise the Director when a property does not appear to warrant public financing for its exploration and development. An adverse opinion shall be referred at the request of the applicant to the Exploration Advisory Committee, who will review the facts and make a further recommendation to the Director. This is not intended to reject high risk properties, but only those properties that on the basis of present criteria do not appear to warrant public financing.

- (3) The holder of the property or the potential purchaser are invited to make application prior to entering an agreement for a ruling as to whether the property is considered publicly financeable. The property, with the available technical data, will be referred to the Commission's technical consultant, as described in (2).
- (4) Any prospector or other person wishing to sell claims or obtain financing to explore and develop mining claims may contact the Director or his designated Deputies firstly to determine whether the property is publicly financeable, and secondly, to obtain information about the alternative methods of financing, e.g. grub stake, prospecting syndicate, short form mining exploration prospectus, security issuer, or through its sale to a company.
- (5) The Commission will maintain an up-to-date list of persons who have promoted and financed exploration and development companies. This list will be given to anyone seeking financing for the exploration and development of a property.
- (6) Commission staff advice will be provided to assist a prospector in drafting a prospecting syndicate agreement or the short form mining exploration and development company prospectus.
- (7) The Exploration Advisory Committee, as contemplated, will consist of panels of at least three members chaired by a representative of the Prospectors and Developers Association. Panel members will be drawn from the lists supplied by the Association of Professional Engineers of the Province of Ontario, the Ministry of Natural Resources and other appropriate bodies.

NOTICE II

PRIVATE PLACEMENTS -
FORMS 11 AND 12 FILINGS

In recent months there has been a steady increase in private placements reported on Forms 11 and resales on Forms 12, and a larger increase in late, deficient and inaccurate filings. The Commission is concerned at the failure of those responsible for the filing of these forms to comply with the provisions of the regulations:

- "11.-(1) Where a trade has been made in the course of a distribution to the public to a purchaser who is a person or company referred to in paragraph 3 or 9b of subsection 1 of section 19 of the Act or subsection 3 of section 19 of the Act, the vendor or his agent, if any, shall within ten days after the sale of the security resulting from such trade, file with the Commission a report prepared and executed in accordance with Form 11.
- (2) The purchaser referred to in subsection 1 shall within ten days after the resale of any of the securities with respect to which a Form 11 has or should have been filed, file with the Commission a report completed in accordance with Form 12".

The Commission is also concerned, particularly in the area of equity issues by junior mining exploration companies and junior industrials, by the number of foreign-domiciled purchasers and the number of instances where the purchaser is a syndicate, partnership or association apparently formed for the express purpose of the private placement. In a number of instances recently examined by the Enforcement Branch the facts appeared not to contemplate any investment intent and rather to suggest a purchase with a view to a distribution to the public contrary to the requirements of the Act.

Accordingly, the Commission gives notice that all such private placements will henceforth receive close scrutiny. Further, timely and accurate reporting of purchases and resales of ALL private placements will be required.

ONTARIO POLICY NO.3-03

MINING AND OIL COMPANIES:

VENDOR CONSIDERATION: RETAINED INTEREST:

ESCROW AGREEMENTS: TRANSFERS AND RELEASES FROM ESCROW
AMALGAMATION AND ESCROWED SHARES

In the light of Policy No.3-02 released by the Commission which comes into force 1st April, 1976, the Commission has revised Policy No.3-03, as follows:

1. The provisions with respect to the headings VENDOR CONSIDERATION, RETAINED INTEREST BY THE VENDOR, and paragraph (1) under the heading RELEASE OF VENDOR SHARES FROM ESCROW are superseded by the applicable provisions of revised Policy No.3-02, relating to new property acquisitions and financings by mining exploration companies after April 1, 1976.
2. The provisions under paragraphs (2), (3), (4) and (5) relating to RELEASE OF VENDOR SHARES FROM ESCROW, and the provisions with respect to TRANSFERS WITHIN ESCROW shall continue in force where applicable with respect to companies having issued and outstanding escrowed shares prior to April 1, 1976.
3. The provisions relating to OIL AND NATURAL GAS COMPANIES shall continue to apply to companies having issued and outstanding escrowed shares.

Your attention is directed to the Preamble of Policy No. 3-03 which states:

"The policies are guidelines only and the Director and the Commission will exercise their discretion to meet special or unusual circumstances. This will be particularly true where the company is engaged in the exploration and development of both mining and oil and natural gas properties. Where the securities of the company are listed, the appropriate stock exchange will be consulted."

The Commission and the Director shall continue to exercise their discretion at all times with respect to specific situations where any conflict exists between the continuing application of Policy No.3-03 and the provisions of the revised Policy No.3-02. In this connection attention is directed to the provisions of paragraph VII (6) of Policy No.3-02, as follows:

"While it is not feasible to cancel all existing escrow agreements every effort should be made, as existing companies arrange new financing to develop newly acquired properties, to reduce the number of escrowed shares outstanding through a donation back of escrowed shares so that the subsequent financing might proceed in the light of this more flexible philosophy."

THE SECURITIES ACT

IN THE MATTER OF WARREN EXPLORATIONS LIMITED,
REGINALD JAMES WILLIAMS,
DONALD GARDNER,
NICHOLAS MAJENDIE,
TIMOTHY FUSSNER, and
ALEXANDER MELNICHUK

Hearing: 18 March, 1976

Present: A.S. Pattillo, Q.C. - Chairman
H.S. Bray, Q.C. - Vice-Chairman
G.R. Guillet, P. Eng. - Commissioner
Professor S.M.D. Beck - Commissioner
Dean D.L. Johnston - Commissioner

R.T. Morgan - Commissioner

Irving Kumer - Counsel to the
Applicants

L. Gord - Staff Counsel

This was an application made collectively on behalf of Reginald James Williams, Donald Gardner, Nicholas Majendie, Timothy Fussner, and Alexander Melnichuk, five of the thirteen participants in the "Kroflite Investment Company" ("Kroflite") for orders under section 59 that the resale of the shares of Warren Exploration Limited ("Warren") purchased by each of them through the purported private placement effected by Warren to Kroflite on August 27th, 1975,

regarding which we received a Form 11 on September 2nd, 1975, should not be deemed a distribution to the public. On September 19th, 1975, we received a Form 12 disclosing that the "partnership" had been dissolved and the Warren shares were being distributed to the individual "partners". Mr. Williams had purchased 25,000 shares, Mr. Gardner 25,000 shares, Mr. Majendie 50,000 shares, Mr. Fussner 10,000 shares and Mr. Melnichuk 20,000 shares - all of them at 45¢ per share. The partners had never met. The only "business" conducted in the name of the so-called partnership was the filing of the Form 11 and the Form 12.

The Commission, struck by the interesting circumstances, issued a temporary cease trading order on September 29th, 1975, to prevent the resale by the thirteen "partners" of the shares obtained through what on the face of it appeared to be a spurious private placement. In addition, it wished an enquiry made into the circumstances surrounding the thirteen purchases. The statutory Section 144 hearing was held on October 14th, 1975. At the conclusion of the hearing, we found that the ostensible private placement was specious as it was proceeded with upon the advice of a solicitor (since deceased) for the purpose of creating an appearance of a private placement in an attempt to circumvent the prospectus and registration requirements of The Securities Act. The purchasers were not naive, unsophisticated individuals so far as we could tell. They had collectively purchased through Kroflite, in the language of subsection 3 of section 19 "for investment only and not with a view to resale or distribution". It did not appear that the public interest would be served by continuing the cease trading order providing we could be assured of the investment intent of the thirteen participants. To show their good faith W.G. Howse, who had signed the Form 11 and the Form 12 on behalf of Kroflite, undertook and did obtain and file an undertaking from each of the thirteen purchasers that they would not sell any of their holdings without obtaining an order from the Commission.

The basis upon which these five applications were jointly made was that the Applicants had purchased the shares in good faith without any intention of knowingly contravening the provisions of The Securities Act. The Applicants had held the shares for a period of six months and desire to be in a position to dispose of them at the market. Warren shares were said to be trading in the range of 40¢ per share while the price paid for the shares by each of the Applicants was 45¢ per share.

It became quite clear that the position taken by the Applicants' counsel had nothing to do with their so-called investment intent at the time of the purchase. He advised us that it was a widely held opinion, based upon the six month holding period required by The Toronto Stock Exchange's Policy 2.01.1 regarding the listing of additional shares of listed companies distributed to either exempt purchasers through section 19(1)3 of the Act and the regulations or by way of private placement through section 19(3) of the Act and the regulations, that exempt purchasers and private placees were free to sell their shares after holding them for six months. There is apparently no concern about the validity of their original declared investment intent or, on the resale, the client being charged with acting as an underwriter without registration contrary to section 6(1)(d) of the Act and effecting a distribution of those securities to the public without making the filings required by section 35 of the Act. There seemed to be no concern that evidence of a change of circumstances altering the original investment intent must be adduced.

We advised counsel that in our view the passing of six months and a desire to be able to sell were not grounds for granting the order requested. The United States jurisprudence suggests that much longer periods of time must elapse, ranging between two and five years, coupled with a change of circumstance in the investment intent in order to rebut the inference that the declared investment intent at the time of the purchase was not bona fide. The joint application, while much more truthfully conceived than the Form 11 in which the "partners" through

Kroflite purported to purchase for investment only and not with a view to distribution, serves to underline that the investment intent declared on behalf of these purchasers at the outset was not bona fide and the investment intent which we believed was being underlined through the individual undertakings following the October 14th hearing might not have been evidence of a continuing investment intent. Since, on counsel's instructions, there appears to have been no other basis for a change in the investment intent of the five individuals the applications were refused. We suggested that any future applications should be made individually and should specify the circumstances peculiar to that individual upon which our decision might be based.

Mr. Kumer requested that we issue reasons for the refusal so as to offer some guidance for those involved in corporate financing. He pointed out that the legal profession and the industry were taking comfort from the Toronto Stock Exchange policy, to which we previously referred, and the fact that the Commission has remained silent in the face of that published policy. In the light of our recent concerns about private placements, as expressed in the notice, appearing in the Weekly Summary of March 11th, 1976, we are pleased to issue these reasons.

The jurisprudence on the meaning of "investment intent" is all found in the United States (e.g. see Crowell-Collier Publishing Co. (1957) S.E.C. Release No. 33 - 3825 and Disclosure to Investors - The Wheat Report, CCH Fed. Sec. L.R.5213). Section 19(3) private placement found its way into Ontario's securities legislation through The Securities Act, 1966. The March, 1965 Report of the Attorney General's Committee on Securities Legislation in Ontario upon which, for the most part, the innovative changes in the forerunner of the present Act was based, was silent on the subject of private placements. The need for some kind of exemption permitting the sales of new issues to sophisticated investors without the necessity of filing a prospectus had been recognized when the Act was amended in 1963 to permit the Commission to recognize specific investors for the purpose of

permitting exempted distribution. This exemption is continued in section 19(1)3 of the Act. The 1966 Act included in section 19(3) an exemption for sales of a certain size provided the investor purchased, as we have noted, "for investment only and not with a view to resale or distribution". Regulation 11 to the Act requires the filing of Form 11 within ten days of the sale. As part of the form the purchaser certifies to its investment intent. The exempt purchaser is required to make a similar declaration.

These two methods of private placement have proved popular. It is faster and perhaps more certain from the point of view of the issuer. There is a perceived saving in underwriting and distribution costs. There are other factors which have been explored in depth in both articles and texts. The Commission recognizes the efficiency of this method of raising capital.

It is apparent how closely we have drawn upon the United States experience in drafting the legislation and the regulations. Section 5 of the U.S. Securities Act of 1933 makes it unlawful to sell any securities unless those specific securities are the subject of a registration statement, a prospectus in Ontario terms. Section 4 of that Act provides for a number of exemptions from the registration statement requirements for any person other than an issuer, underwriter or dealer or transactions by an issuer not involving a public offering. "Underwriter" is defined in section 2(11) to mean any person who has purchased from an issuer with a view to, or offers or sells for an issuer in connection with, the distribution of any security.

In order to determine whether a particular transaction is exempt, it becomes necessary to examine the purchaser's intent at the time of the transaction and to consider whether it was in fact a purchase for resale - an underwriting. Thus the practice grew up in the United States of requiring an investment letter from the buyer declaring in a negative sense that he is not taking as an underwriter, that is he is not taking with a view to distribution but with a promise to hold for investment and not to resell.

As will be noted in Professor Louis Loss' work on "Securities Regulation", 2nd edition, 1961 commencing at page 665, the buyer's self-serving statement cannot be conclusive. The buyer's declaration that he is purchasing for investment is a statement of present fact. It cannot be said to impose an indefinite restraint on the private placee. The fact the buyer does not resell is evidence that he purchased for investment. The fact the buyer does sell is not conclusive proof that he had no investment intent at the time of the purchase. But the U.S. law is clear that the shorter the period before resale the stronger the inference that there was an intention to resell from the beginning unless the original purchaser can show some plausible reason why he has changed his mind.

In general terms it is no reason to say that the purchaser always intended to sell if the market price went up or down or if there were some change in the affairs of the company. Market prices always go up or down and no company's affairs remain static. Rather, from such facts it might be inferred that the purchase was for resale at the first appropriate opportunity and there was never a bona fide investment intent.

Therefore, the longer the holding period, the stronger the inference that the purchase was made in the first place with the requisite intent. Some confusion may have resulted from the United States six-month capital gain hold period specified in its income tax laws. Opinions on United States law have ranged from holding periods of one to five years. Rule 144, promulgated by the Securities and Exchange Commission in April, 1972, sets out the conditions under which the exemptions in section 4(1) of the 1933 Act might be enjoyed and provides for a minimum holding period of two years coupled with a number of other conditions. If those conditions cannot be met, the purchaser can turn to Rule 237 which requires a five year holding period.

The Commission, like the legislators, has refrained to this point in time from declaring its views as to the minimum holding periods. Rather it has accepted the view that time is but one factor

in determining whether there was a bona fide investment intent at the time of purchase. It would appear, however, that some opinions are being based on appearance and not substance.

In Chapter V of its February, 1970, "Report on the Problems of Disclosure Raised for Investors by Business Combinations and Private Placements", the Committee touched on these questions. It had evidence that the exempt purchaser exemption had been abused. Exempt purchasers were being advised that they were free to sell without restraint. In fact such exempt purchasers, by definition, were acting as underwriters with all of the potential consequences which flow from that position. Since it was apparent that the exempt purchasers, as well as the issuers, were acting on legal advice it was decided that rather than institute proceedings, the exemption should be amended by regulation to put exempt purchasers in the same position as private placees. They too could only enjoy the exemption if they purchased with the declared investment intent. It certainly is not and never has been the Commission's position that a purchaser does not need bona fide investment intent under the present legislation and regulations or that the purchaser need only hold the securities for six months at which time he is free to sell without any other change in circumstances.

The 1970 Study attempted to indicate the perceived consequences of piecing together a legal fiction, such as Kroflite, in order to put a colourable shield around an unlawful distribution to the public. If the six month hold period is, as stated, a generally accepted standard, it appears that some of the declarations made by purchasers may be misleading with the result that those procuring the signatures may be a party to any offence which flows from these misstatements. The exemptions from the registration and prospectus requirements will not be available to either the issuer or the purchaser in the absence of genuine investment intent.

The Committee, and the Government through Bill 98, recognized the difficulties in defining investment intent and avoided these problems by coupling a higher standard of continuous disclosure with a statutory hold period instead of conditioning the exemption on the intent.

ONTARIO SECURITIES COMMISSION

W E E K L Y S U M M A R Y

WEEK ENDING 22ND APRIL, 1976.

N O T I C E

PORTFOLIO MANAGERS

ONTARIO REGULATION NO. 270/76
EFFECTIVE 25TH MARCH, 1976.

The Commission has received a number of comments concerning paragraph 5 of subsection 20b of section 6 of the Regulations which was added by Ontario Regulation 270/76. The paragraph provides that,

'Trades in securities for investment portfolios managed by the portfolio manager shall be executed,

- (a) through a dealer under the provisions of paragraph 7 of subsection 1 of section 19 of the Act; or
- (b) through the exemption from registration under subclauses 1 to 6 and 8 to 11 of subsection 1 and subsections 2, 3 and 4 of section 19.'

Paragraph 5 is a restatement of section 19 of the Act. It cannot, and does not, purport to expand or restrict the scope of the Act's application. The Commission's long standing position with respect to the right of investment counsel to deal directly with dealers and brokers in other jurisdictions remains unchanged.

- (a) incorporated, organized or continued under the laws of a province or territory other than the province or territory in which the prospectus or statement of material facts is filed, or
- (b) incorporated under the laws of Canada whose head office is in a province or territory other than the province or territory in which the prospectus or statement of material facts is filed

before accepting such prospectus or statement of material facts for filing, the administrator will wish to be satisfied that a prospectus or statement of material facts relating to the proposed offering has or is about to be accepted for filing or an order or ruling exempting the proposed offering from the prospectus requirements has been made by the administrator in the jurisdiction in which the issuer was incorporated, organized or continued or in which, in the case of a Canada corporation, its head office is located.

This policy is not to be construed as in any way interfering with or altering the procedures established under National Policy No. 1 for the clearance of national issues providing the filing is also being proceeded with in the 'head office' jurisdiction contemporaneously with the 'principal jurisdiction'.

PROPOSED AMENDMENT TO -

NATIONAL POLICY NO. 9 - MUTUAL FUNDS -
FORWARD PRICING, SALES AND REDEMPTIONS

Reasons for Amendment

The Canadian Provincial Securities Administrators have discussed the proposal of a major Canadian mutual fund management company to be permitted to value its fund less frequently than daily, indeed at the discretion of the management, and the implications of the proposed changes. We concluded that the security holder who purchased with the liquidity offered by daily or weekly valuation should not be deprived of it without the approval of a substantial majority of the security holders. In addition, the valuation dates should continue to be certain and not less frequent than once a month. The draft amendment is designed to carry out this intent.

Proposed Amendment

National Policy No. 9 is amended by adding,

- '4. Subject to 2, where a mutual fund which has been computing its net asset value more frequently than monthly proposes to compute it less frequently it shall first obtain the consent of security holders of the fund owning at least 50% of the outstanding class of securities affected through a resolution passed by a majority of not less than three-quarters of the votes cast by security holders who voted in respect of that change providing that the purpose of that change and the effect of the change is clearly explained in an informational circular or similar document mailed to that class of security holders together with the proxy in advance of the meeting'.
